Project Description:-

The portfolio App is a web application.It is a unique way to showcase your work and let others know about yourself. It's like an evergreen platform for your projects,case studies,and information about you.In addition ,it's one of the best way to express your personality,experience and capabilities. The app provides a user-friendly interface and uses HTML and CSS for its implementation.

Technical Architecture:

Project Objectives:

By the end of this project, you will:

1. Create a responsive and interactive user interface using HTML, CSS, and Bootstrap.
2. Implement functionality to add, complete, and delete tasks using JavaScript.
3. Provide filtering options to view tasks based on their status.
